Mahir said our only options that can lift 60 years is Dunya or RMK in Istanbul with a hanger for repaint. I am going to see RMK tomorrow. Can you mention it to Dunya when the guy calls you?

We have to have an answer to get the boat out of the water before the 5th November as we have a flag inspection. I will try and make sure everything is ready but, as we are short on crew and they don't have their Malta endorsements etc we might have some problems. I'm working on solutions but will need quick answers from you. I am meeting RMK tomorrow so will have all options then.

I spoke to Ursu (Dunya Yachts) they don't have a crane to lift 60 years so will need to hire a floating dock. €8000 per day 3 days to lift, 3 days to launch. €48000 for lifting and launching. They are sending me a quote for the hanger storage but I assume approx €30k per month. Total €180k for hanger. Total to use Ursu will be €22800 just for lifting and storage. On top of that we will have some entry costs per person and electricity.

I met with RMK all morning and will have a price this afternoon. Looks like they might be around what we want to pay. They have a lift but as you know from lifting last time it is right on its limit to lift 60 years. But they need the work so we can drive the price down

Ok I have arranged diving in Fujairah for tomorrow, the visibility in Dubai isn't amazing and should be better there. It's 1:30 by car from the Hyatt.

I can also arrange at the world islands of you want to be closer to Dubai.

But ideally it's better if we can go to Oman.

I arrive at 02:00 in Dubai, I will get a car and have stuff ready, I need to wait until 10am for the place to open to get oxygen and Air but from 10.30 we should be ready to dive.

Hi buddy,

Are all the passports ok?

I have sent you an email with the new plan, please check.

will all go to Dubai on Sunday to watch you and Acun drive? I need to know for helis?

If yes do you want lunch in Dubai? If so where?

If they won't go I can arrange lunch for everyone else at the hotel?

chat-173.txt

To complete all bookings I need to get another 450,000AED when I arrive back in Dubai Tuesday night.

I need to know where the Radical is stored or ask you to get someone to contact AUB MotorSport to arrange collection

Thanks

Also I still need to know where you would like to go for dinner Saturday night, your options are

Zuma - now fully booked but maybe we can do something

nussarett

Kazoo - Japaneese in hotel

Hakkasan - 30min transfer time

Mezzaluna - 30min transfer time

Cipriani- really the best option at this stage

Atayeb- Arabic in hotel

Angar- Indian in hotel

Amici - Italian in hotel

Hi buddy, Erdinc just called me telling that Regaip bey is asking for more discount.  
I already kicked his ass hard on the price and he's 40% cheaper than anyone else. I  
also made him keep the same price to do the job in Bodrum as Istanbul. And he has to  
pay all the transport and accommodation for his guys to Bodrum. He a bit sad that we  
made a deal and want to change but I managed to get him to give 10% discount if we

chat-173.txt

don't have an invoice. Are you happy with that? Also we don't pay the 19% KDV

We need to pay

1. Erdinc - he needs money to pay bringing everything to Bodrum, flights and stuff for his workers. He won't start without a upfront payment
2. Mehaba Tourism - we need to finish the contract with Suleyman, we can't do this without making his account zero. We pay payed a tiny but but we must pay all. Burak, Ragaip and I have confirmed all invoices are correct last month so we just need to pay.
3. Askin Tente - this has been not paid since June, this was to replace all cushions and covers on 60 years and at Regnum and the roof on 60Yil, the invoice is high but we really had a lot of work
4. nature Bodrum (Flowers for 60 years) Regaip managed to get a discount but still we didn't pay.
5. Mono Yachting - €750 we need to pay this asap as it was for day workers to help remove the masts.
6. Omer Marin servis - crane for lifting masts, I was told this was paid but has not been
7. I desperately need some cash to pay for small jobs and things for the boat, car fuel and small items - I asked for 30,000TL 2 months ago but they will not give it to me. I also spend all my allowances in Dubai / Abu Dhabi and need that returning.
8. UBoat Worx - we have paid 35k and had the 20k returned. We have sent another 20k from Dubai (they will confirm today if they record that) But at this rate it will take 4.5 years to pay for the first submarine! UBoat are starting to get very worried, we now have outstanding €735000
9. If we want to avoid the Tier 3 regulations we must make a payment to Lloyds and get contracts signed this week.
10. Mahir is no going to work anymore without a payment as we agreed in Dubai.

I will head to Istanbul tomorrow afternoon of we can get this issues fixed. But they are causing me real problems and the amount we owe is growing quickly.

Hi buddy, just saw your missed call. I'm on board 60years today and let my phone inside while working with the scaffolders and having a meeting. I've got my phone now if you want to call me. I've not been able to see the work boat as its under offer apparently they will let me know Monday if the offer is accepted or not. But I will send you details for the other two boats. I will be coming back to Istanbul tonight as I hear you have problems with Iron, I will fix them. Also check you email later today I have an option for Indonesia from the 27th Decmeber.

Hello Reza bey, I'm working on the contracts for the new boat from Sweeden. Which company do you want to buy it from? The contracts are very important and that we can transfer funds quickly once the contracts are prepared. Deposit of 10% €75,000 next week and the balance €675,000 end of January.

My opinion is to buy it from RZA Malta and flag with Malta.

Hope you are well and enjoying Dubai my friend!

Hello buddy, here is the information.

All of use tell  
Boat is very strong  
all systems are like new  
we have original invoice €3.66m (500 running hours ago)  
All systems are best quality  
The steering and engine system is very good

To make a boat like this with bad equipment is minimum (€1.5m and 14months)  
Even if you sell you can make good money after 3 years

I needs some work to make it comfortable on the interior

It needs navigation equipment (we have from Abosh)

The A frame crane needs upgrading to bigger one

The test we made is with a very light boat (50Ton of diesel and water missing) this  
Page 66

chat-173.txt  
made the boat a little unstable - we think this will go away easily  
with waves coming from the back the boat was moving left and right, we think this will be fixed when we have weight and a better captain.  
Mahir - Yes Reza should buy  
Murat - Yes Reza should buy  
Soren - Yes Reza should buy

Adam - Yes you should buy but you must see it, it is strong work boat, like ship.

Today their captain crashed it into the harbour and put 20cm hole in side of hull and some things need fixing that we can use to get the price down more - tomorrow I will make deal after you have seen the boat and try for €650k

We need to pay €70k to bring to turkey and approx €150k work to make how we need.

I believe you can have an amazing very capable boat with gyro stabiliser like new for the €1m budget we originally agreed or a very good boat like new without for €850k

So if you can please come tomorrow, I have arranged UBoat for Saturday

To have the inspection in Sweden is going to be a big problem. It will take weeks and needs a full dry dock inspection. This is a Sweden only regulation. We have two options.

1. Change to Malta flag and then sail (could take up to 2 weeks)
2. Have the boat towed to German (this is the option I'm trying to arrange) I will have a price at 20:00 (Sweden time) but they think about €16k

chat-173.txt

The fuel to sail will be about €6k plus all the other expensive stuff we need to buy in Sweden plus Raymarine fitting I think I would be cheaper to tow the boat

Hi buddy, sorry couldn't answer we have been fighting big waves for the last few  
hours, we have had to find another harbour to wait for the wind to stop, there is a  
hurricane in the North Sea giving us really bad conditions.

This is the Baltic Sea, it's crazy here. Wind is 50mph and 5m waves, we can only go  
2/3 mph with the wind in our face.

I have made them confirm it is their fault, and they will find a solution at Hamburg or Rotterdam. They will tell tomorrow which one. They will use shore cranes.

Also I have the new lowest price to fix the Azimut.

1. Toilet system - new total system -€8373
2. Repair of Air-conditioning and replace control panels that are broken - €4061
3. Most basic repairs to engines to last at least one year - €14,789
4. Renew and service engine water pumps - €9288

This work will take some time to compete plus ordering all the parts required could take up to 1 month. It would be a good idea to think about doing this work soon.

Ok buddy! I see lots of things happening and no one telling me anything. They asked for my credit card back and arranged a meeting with all staff tomorrow without telling me why (That's how Metin got fired). That plus Hassan coming to report about 60years. I was worried I had done something to upset you or you thought I wasn't handling things how you like. I normally have good contact with you so it was strange. I'm very sorry for bothering you but I was very worried! I wish you all the best with your family problems and if you need anything from me or I can help in anyway I hope you know I will just ask.

Ok she needs to know, rightly when you need someone to start. Most are about (£1000 to £1300 per week) this would be 12 hours 5 or 6 days a week. They need minimum 4 weeks holiday per year.

The first one has already got another job but she will ask her anyway.

Agencies charge 22% of yearly salary as finders fee (I thought this was very expensive!)

She will start again from tomorrow.

will you continue to have a nanny to care for her normal daily needs? Like washing, eating etc?

How many hours per day and how many days per week?

We ask this because there are two kinds of staff

Nannies - care for your daughter (normally not teacher qualified)

Governess - Provides Education and learning (very highly qualified teacher specialist in learning)

We understand your need for that person to be energetic, be very happy and young at heart. Making learning fun but delivering discipline and being a lady at all times.

Christine has a Friend called Sarah who she thinks would be amazing for the job.

Christine said.....

I have known Sarah for approximately 10 years and worked with her for maybe 6 years.

I told her some sole care but there is other staff in the household.  
I said she would be responsible for planning and creating fun learning to support all round child development in particular spoken and written English.

She is mature but young attitude  
Excellent early years practitioner.  
Clearly spoken and articulate English  
Caring and manages behaviour sensitively but firmly  
Excellent interpersonal skills. Quiet and confident nature.

Maybe a trial.. Easter holidays??

Please confirm with Regaip to pay MegaYacht today or we will loose the boat and have huge costs.

Also he promised Aganlar money and they have now stopped working on 60years and refuse to go back to work until payment is made. I also have written proof that they didn't agree to cancel the €8k

Also please ask him to pay my money, I'm owed money for a long time that I had to spend, I have no company money, no company credit card. They also owe me 2 months housing allowance they didn't pay yet. I keep using my English credit card for the company and its so so expensive! I get charged 15% using it abroad.

I've asked them many many times in emails and whatsapp but I get no reply. This is getting serious and we should fix it.

Hello buddy, I just sent email with questions. So you know this agency want 25% annual salary of you employ her, plus £100 administration fee. Salery is going be be around £1300 - £1600 per week for the time you need her. She was told 4 days off per month (approx 6 days per week) but it must be flexible when you allow it. She must do nanny and governess and be available to work 24 hours a day. This she was happy with.

I've spoke to her explained this misunderstandings, she wasn't happy that she thought she would have to teach Ms Ebru and Cousin. And that she would need to be responsible to find a PA. I explained she misunderstood that and told her what you told me. She wasn't she traveled 6 hours and was kept waiting for 1 hour then only got to see you for 20mins. Again I explained the situation.

Again basically I got the feeling she was saying all this to get more money so I told her that salary isn't an issue and that you were prepared to go much higher for

chat-173.txt

your daughters education.

She said she has read some bad things in the English press (now they are gonna execute that guy in Iran your name keeps popping up on the BBC website) again I explained you have no connection and were acquitted on all charges. That the media paint a very bad picture and your a great guy.

She said she felt much better after the call, she is busy all day now in the Houses of Parliament. But will Get back to me later with her decision after she has had time to think.

Hi Christine,

I hope you and Adam had a good flight. I used to work in Dubai and friends say the rain has been very bad there this week.

I usually tutor for £30 per hour. My bottom line for full-time governess work is

chat-173.txt  
£10.50 GBP net per hour. I count 'on call' hours as working, because I'm in charge of the child's welfare and can't leave the premises. So per day would be £10.50 x 24. This is a much reduced rate.

I am open to 6 days. The clients can decide if they want 5 or 6 days per week. It doesn't have to be the same each week.

I need a nanny phone, only to be used for work-related purposes, which should be paid for by the client.

I'd require access to a vehicle, for taking the child out (this can be with a driver if the clients prefer) and also for my days off.

I require the standard 4 weeks paid holiday per year. I will take these days at a convenient time for the family.

I will waiver bank holidays.

I require a private bathroom.

I require internet access, both for work and personal use.

I agree to help the cousin and mum with language acquisition, but this should not be a daily undertaking. I agree to helping mum find a PA.

I

That's about it... Happy to come out for a trial week.

Best,  
Jenny
