Defendant cooperated with the	18 U.S.C. 371 (to violate) 50 U.S.C. 1701	Guidelines range of 46-57 months (PSR calculation)	Time served (17 months)

<sup>1</sup> The average sentence for the cases identified in this table is 36.85 months. In addition, throughout this table some of the Guidelines Ranges contain a parenthetical referencing a Government request or a PSR calculation or other explanation. This is because the Government sentencing memorandum or other Court filings only reflected either the Government's requested Guidelines Range or the PSR calculation, but not the Guidelines Range determined by the Court. Also, certain sentencing-related Court filings have been sealed or are otherwise unavailable on the electronic docket which is why certain of the Guidelines Ranges are not presented in the table. Similarly, where we were able to determine that the defendant cooperated with the Government, we provided that information in the "Charged Conduct" column, but we encountered many sealed documents which could reflect that some of the other defendants referenced in the table were also Government cooperators.

Case	Alleged Conduct	Charges Convicted Of	Sentencing Guidelines Range	Sentence
2004)	Government.	(plea; one count)		
6. <i>United States v. Miller</i> , No. 02-cr-01117 (N.D. Ill. 2005)	Defendant owned and operated a company that built polygraph equipment.
